MEMORANDUM FOR: Mr. Warner

The Executive Committee was most interested to hear that the reciprocity amendment to the Communications Act had passed the House. The Director considers this very important and asked what the chances of enactment were. I said I knew of no major opposition in the Senate, and the bill has been passed by Foreign Relations to the Commerce Committee, which has had some hearings. If you find out any definite prognosis, I think the Director would be interested.

L. R. Houston
